PERSONAL SUMMARY

An ambitious problem solver with a passion for online businesses, and who would like to join a team of like-minded developers. Emmanuel Kwame Adominah has much experience of creating logical and innovative solutions to complex problems. He is thorough and precise in everything he does, and has a keen interest in technology, web applications and user experience. As someone who takes responsibility for his own personal development, he is continually evaluating and upgrading his skills so that he stays at the cutting edge of web development. He is a natural problem solver, who has proven himself by successfully completing projects. Right now Emmanuel Kwame Adominah is looking for a suitable position with a company where outstanding performance is recognised and rewarded and where he can work on a variety of high profile projects.

Duties:

- Developing and maintaining the front end functionality of websites.
- Participating in discussions with clients to clarify what they want.
- Designing prototypes for apps and websites.
- Creating logos, banners and buttons for websites.
- Writing cross-browsers compliant HTML, CSS & JavaScript.
- Simultaneously managing several databases and reporting tools.
- Contacting external webmasters to confirm link placements.
- Provide guidance to other team members on web development issues.

KEY SKILLS AND COMPENTENCIES

Web Development:

- Knowledge of HTML, CSS, XML and JavaScript/jQuery.
- Awareness of the Web Development industry, and new technologies.
- Social Media Monetisation Strategies.
- Developing multi-user applications within a (SOA) service orientated architecture.
- Writing up technical manuals and user instructions.
- Strategically thinking through all parts of the design process.
- Knowledge of payment processing, customs clearance and multi-currency pricing.
- Knowledge of international web standards and protocols.
